

INSTALLATION GUIDE

IMPORTANT, PLEASE READ CAREFULLY AND KEEP FOR FUTURE REFERENCE

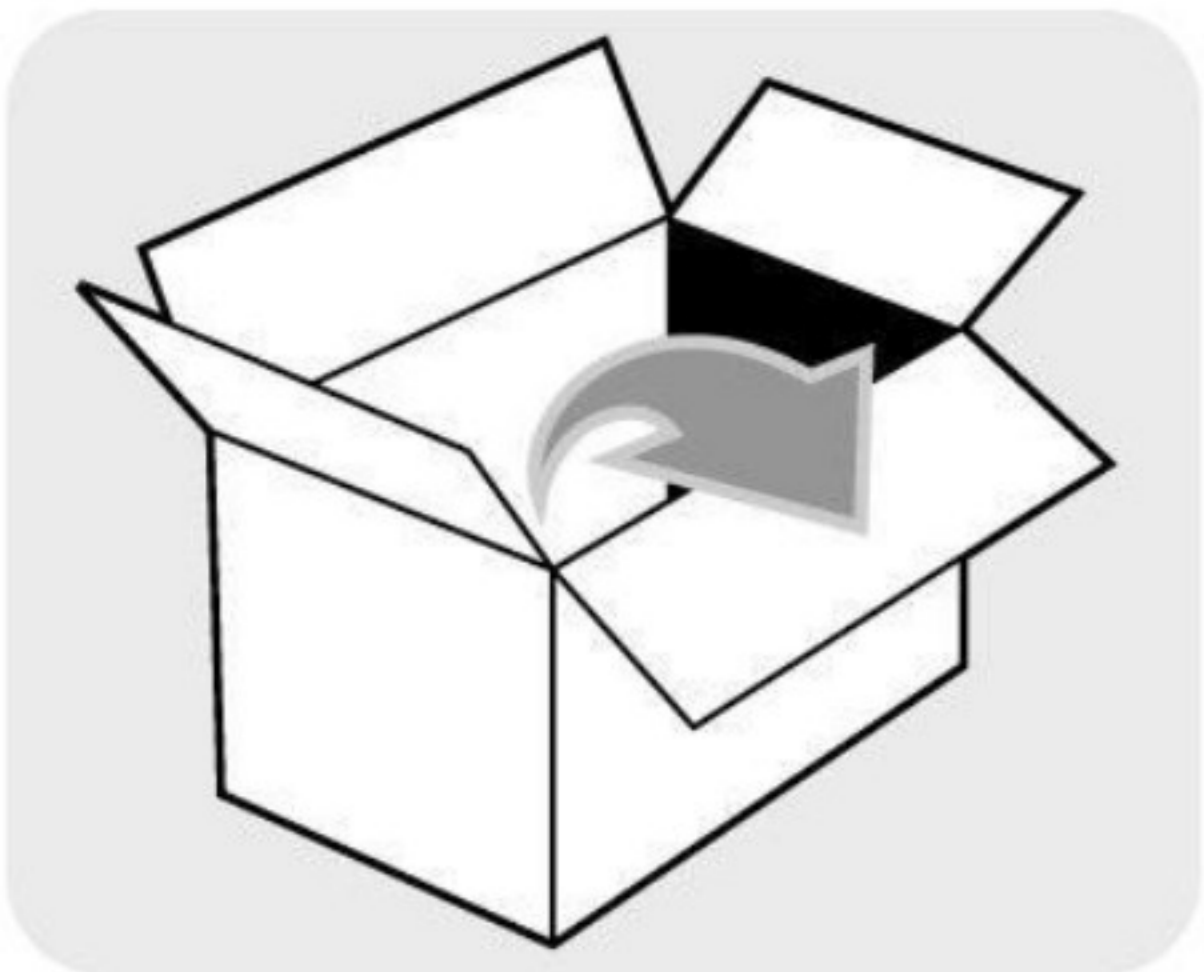

1. You may notice a slight variation in colour during the first month of use. This is normal.
2. Profiles must be stored in a dry and ventilated environment, away from direct exposure to sunlight.

Store and transport the profile horizontally

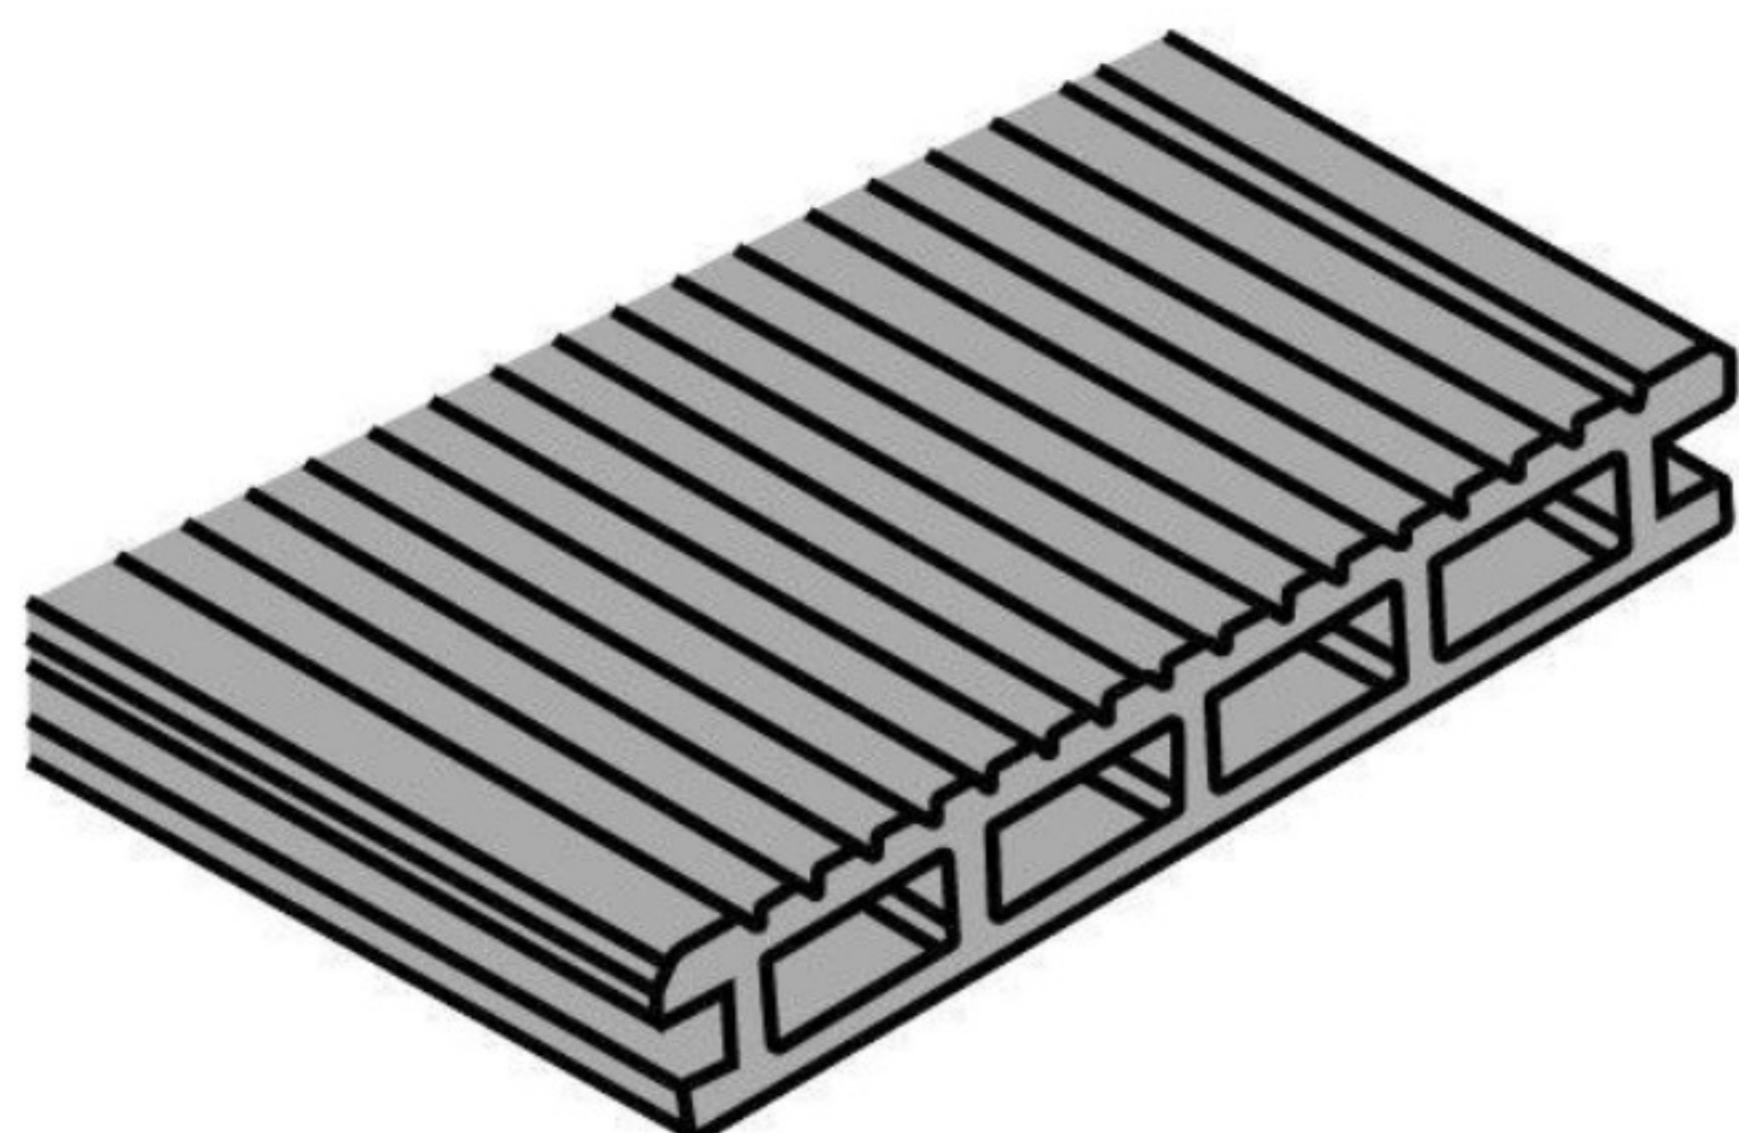

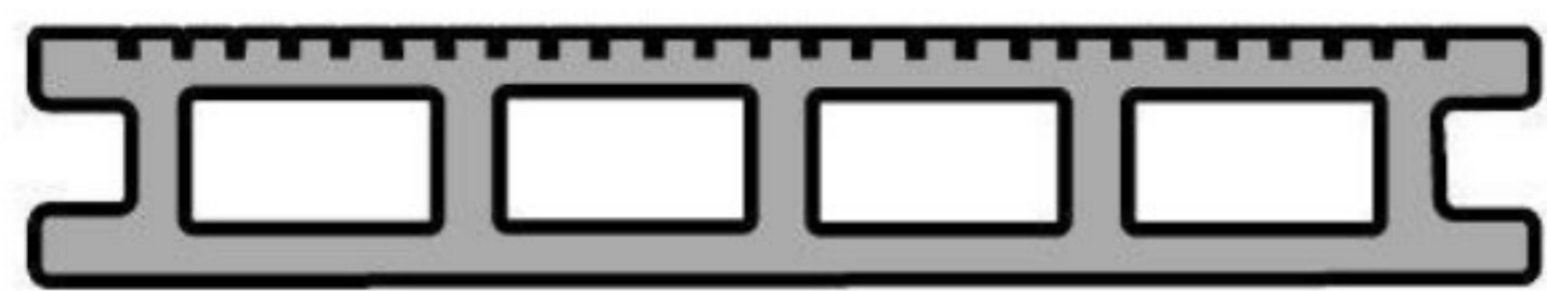

When handling long profiles (>2m) seek the help of a second person

3. Exercise caution when using electrical products and power tools outdoors.

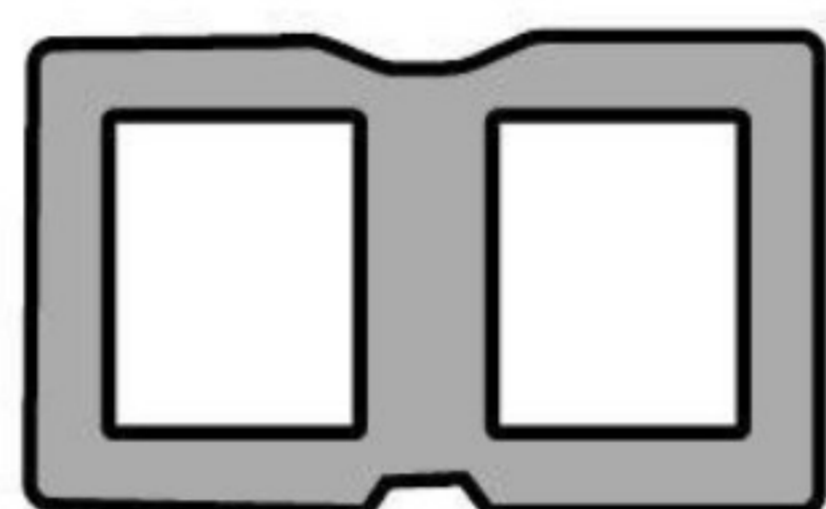

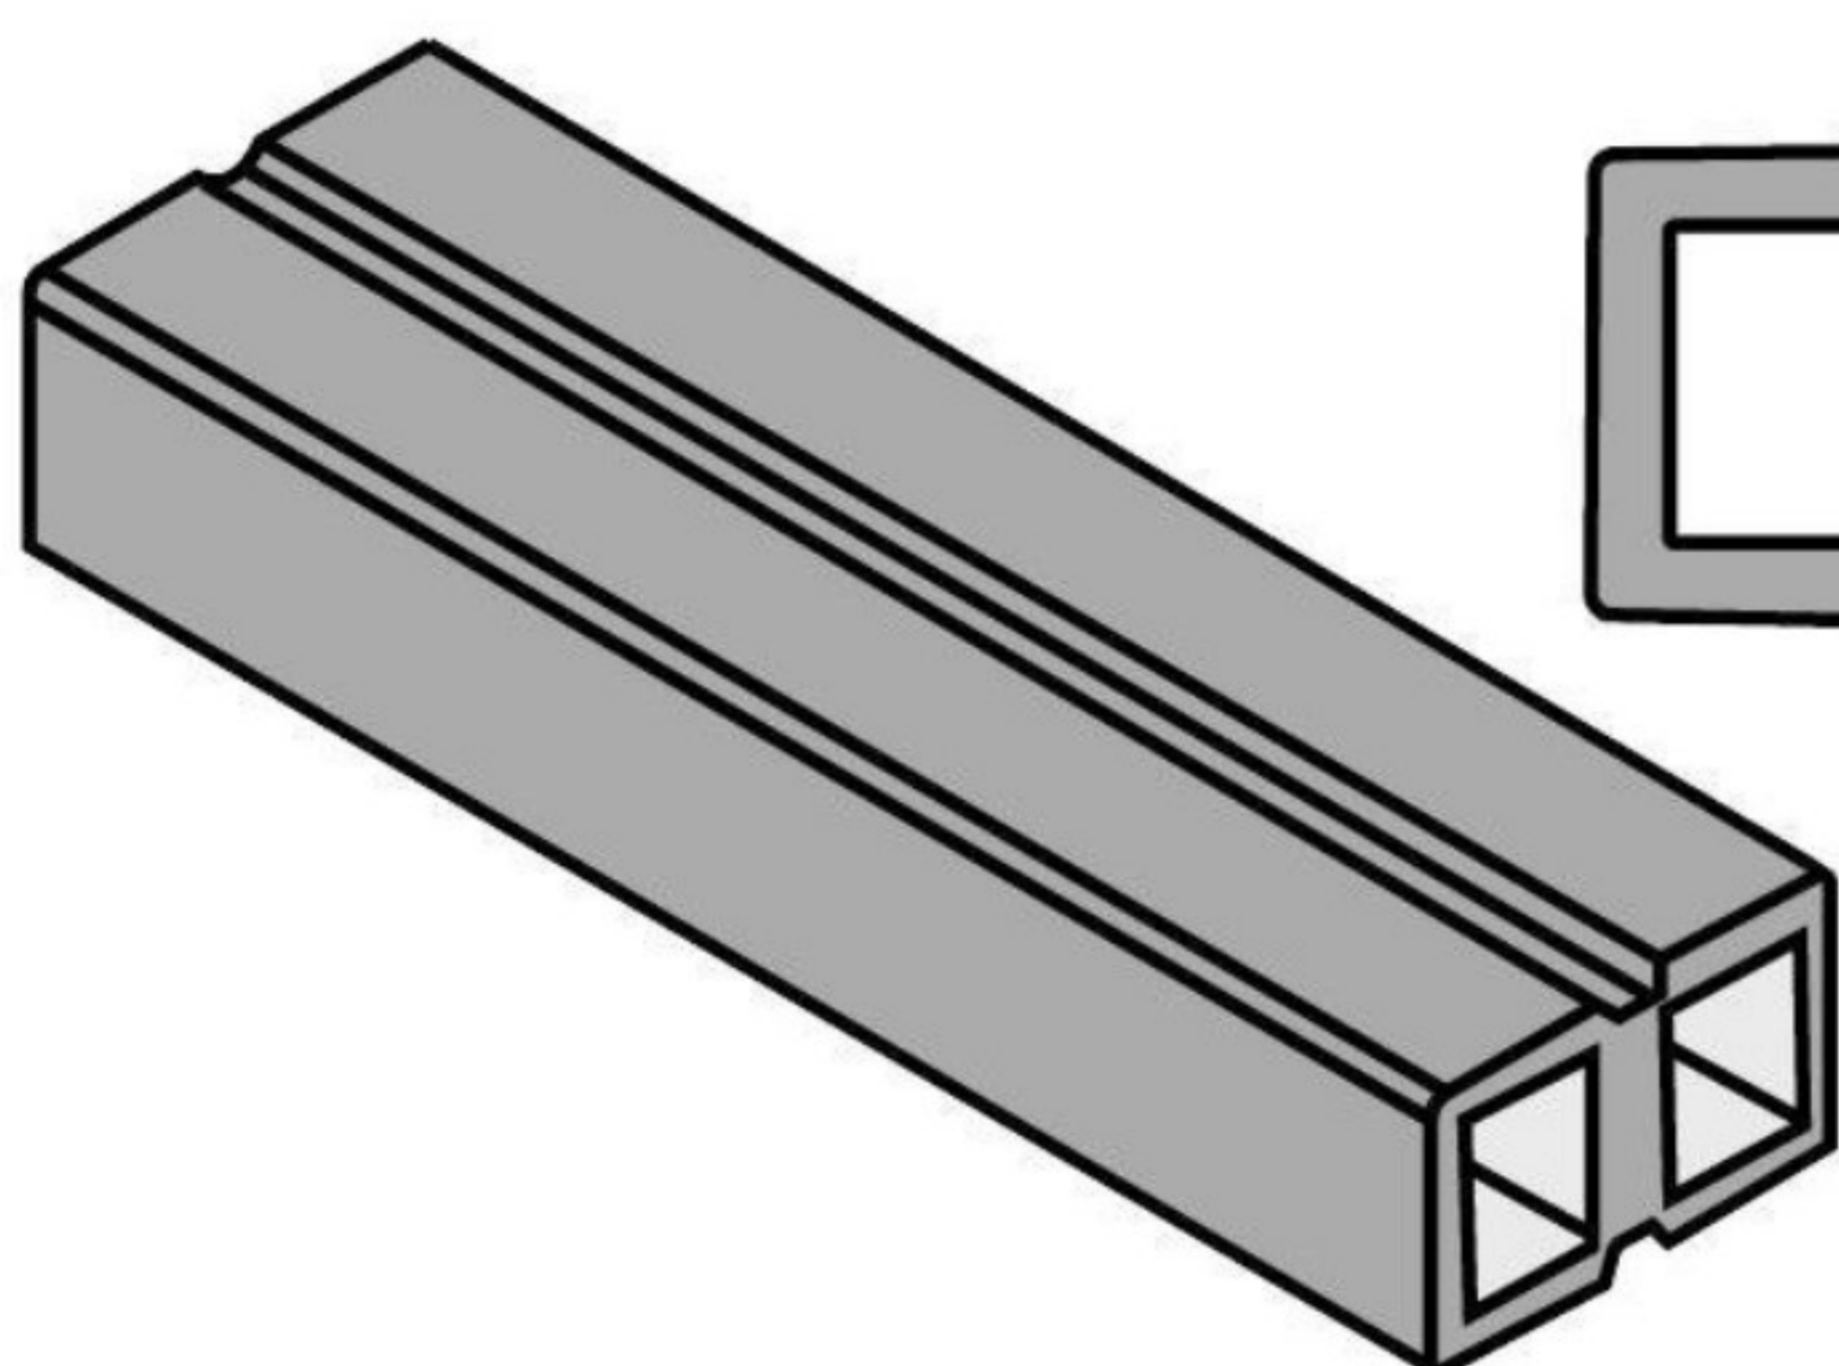

Please strictly follow the manufacturer's safety instructions and never use electrical equipment outdoors when it is raining.
